The Spiderjet M Edge is attached to the work surface with permanent magnets and, thanks to its small build, is ideal for cleaning particularly close to the edge of the coated area. The vacuum system immediately retrieves all waste water and removed solids and allows for further processing.

- **Working width:** 374 mm
- **Operation speed:** 0 – 7 m/min
- **Operation pressure:** max. 3000 bar
- **Flow rate:** max. 50 l/min
- **Weight:** 105 kg

**Product benefits**

- Maximum manoeuvrability via two independent, electrical drive lines
- Optimal utilization of the working width due to narrow construction
- Cleaning over edges possible
- Uniform removal pattern across the entire working width
- Ideal surface preparation
- High operational safety
- Leak-free rotary joints with dynamic high-pressure seals ensure long service intervals
- Simple construction and easy maintenance
- Radio remote control increases operator safety
- Secured by a double fall arrest system

**475 mm width for optimal surface accessibility**

**Strong magnets for self-adhesive operation**

**Direct retrieval of waste water and solids through vacuum system**
Spiderjet® M EDGE

Field of application
The drive wheels placed directly behind the high-pressure water tool enable a particularly narrow construction with a large working width. This makes the Spiderjet M Edge great for removing coating from intermediate surfaces or working around narrow contours and on edges.

Two vacuum systems are available for the Spiderjet M Edge

**Vacuum collector - 1900**
- **Suction power:** 1900 m³/h @ 500 mbar vacuum
- Maximum vacuum: 500 mbar
- Vac. generator: Roots - rotary piston blower
- Electric motor: 45 kW
- Length: 2335 mm
- Width: 1500 mm
- Height: 2380 mm
- **Separation tank:** Capacity: 3 m³
  - Length: 2350 mm
  - Width: 2350 mm
  - Height: 4200 mm

**Vacuum collector - 660**
- **Suction power:** 660 m³/h @ 500 mbar Vakuum
- Maximum vacuum: 500 mbar
- Vac. generator: Roots - rotary piston blower
- Electric motor: 15 kW
- Length: 1750 mm
- Width: 970 mm
- Height: 2180 mm
- **Separation tank:** Capacity: 1.3 m³
  - Length: 2050 mm
  - Width: 2050 mm
  - Height: 3660 mm
